### **June 18 – (B, L)**

We first make our way to the Robben Island ferry departure point at the Waterfront. Robben Island is located 12 kilometres offshore from Cape Town, surrounded by freezing cold seas and strong currents. In this way, geographically, it is Cape Town's version of Alcatraz, perfectly designed and naturally defended to create the ultimate prison. It was here that Nelson Mandela, was incarcerated for 18 of the 27 years that he spent as a political prisoner of the Apartheid regime. On this tour, you will see the prison itself and Mandela's cell. In the two-and-a-half hours that you spend on the island, your guide will bring those years to life and explain to you how the legacy of Robben Island has been one of the most important building blocks of the new "Rainbow Nation".

Enjoy lunch at a local restaurant before, we make our way to the to the lower cable car station on the slopes of Table Mountain, where (weather permitting) we make the short and comfortable ascent to the top of the mountain by cable car. The panoramic view of the sea and city from the summit is magnificent.

Then we begin our tour of historic Cape Town. Whether you are interested in visiting the traditional tourist attractions, indulging in a personal passion, or simply exploring the 'Mother City' as a local, Cape Town has more than enough diversity to cater to your personal preference. On completion of the tour, return to the hotel with your evening at leisure.

### **June 19 – (B, L)**

Please meet your guide in the reception area of the hotel for your Full Day Cape Point tour.

At the tip of the Cape Peninsula 60 km south-west of Cape Town, lies Cape Point, a nature reserve within the Table Mountain National Park; a declared Natural World Heritage Site. Rugged rocks and sheer cliffs towering more than 200 meters above the sea and cutting deep into the ocean provide a spectacular background for the Parks' rich bio-diversity. Cape Point falls within the southern section of Table Mountain National Park. The natural vegetation of the area, fynbos, comprises the smallest but richest of the world's six floral kingdoms. The scenic beauty of Cape Point is not its sole allure; it is also an international icon of great historical interest with many a visitor drawn to the area because of its rich maritime history.

### **June 25: (B, D)**

This morning you will be taken on a guided, walking tour of the famous Victoria Falls - constituting one of the great natural wonders of the world.

Imagine yourself in the place of David Livingstone, the first known European to see the Falls, and the awe he must have experienced at the sight of the thundering, crashing waters. The permanent rainbows that crisscross the gorge during sunlight - and even during bright moonlight - produce images that are more like paintings than reality. The average flow of the Falls is 120 million gallons per minute and the deafening roar of the flowing water makes all conversation virtually impossible. The Falls truly envelop you with their physical presence - they never fail to impress even the most experienced traveler. One can gaze at the mighty Zambezi as it flows; broad and placid to the edge of a basalt lip 5,600 feet wide before taking a headlong plunge into the frothy chasm of the gorge below.

We supply raincoats during high water months when one is likely to get wet from the spray of the Falls.

The walk is approximately 1½ hours in duration (3km), through the rainforest, stopping at the various viewing points. There are however, 3 exit paths along the way in case you get tired.

We advise you to wear appropriate clothing and shoes for the walk, as well as bring along suitable waterproof protection for camera equipment.

You are likely to see abundant bird life in the rain forest, as well as bushbuck, monkeys, baboons and families of mongoose.

Return to the hotel with your afternoon at leisure.
